

FOR IMMEDIATE RELEASE

PayGen Launches Innovative 'PayGen Wallet' for Seamless Bill Payment Management

Bridgewater, NJ – September 17, 2024 – PayGen, a leading provider of Biller Direct SaaS solutions, is excited to announce the launch of its latest innovation: a digital wallet entry designed to revolutionize the way customers manage their bills and payments. This new feature allows users to store their billing information directly on their mobile phones, providing a convenient and efficient way to view and pay bills, access account information, payment history, contact customer service and much more, all customized with your corporate likeness and information meeting your business needs.

Key Features:

- **Easy Bill Viewing and Payment:** Customers can now view their bills, payment history and make payments directly from their mobile phones, eliminating the need for paper statements and manual payments.
- **Quick Access to Account Information:** With just a few taps, users can access their account details, including billing history, transaction history and current balance.
- **Customer Service at Your Fingertips:** The digital wallet entry includes quick links to customer service contact information, ensuring that help is always readily available.

"We are thrilled to introduce this new feature to our customers," said Louis Obsuth, CEO/CTO of PayGen. "Our goal is to make bill management as simple and convenient as possible, and this digital wallet entry is a significant step in that direction. We believe this will enhance the overall customer experience by providing a seamless and efficient way to manage their accounts."

The digital wallet entry is compatible with all major mobile platforms and can be easily added to any smartphone. The digital wallet entry acts as a 'living document' for PayGen clients to send updates to the stored company information along with personal billing and transaction history.
