PayGen partners with Worldpay from FIS® to power the future of digital bill pay

Accept and process bill payments quickly and securely with PayGen and Worldpay.

PayGen and Worldpay understand what it takes to succeed in the hyper-competitive biller direct digital bill pay market. By leveraging PayGen and Worldpay, billers get the tools and resources needed to grow their business with smart digital bill pay solutions that help drive and retain more revenue with higher acceptance rates and lower operating costs. All with the highest level of protection and security.

Many billers find that their current bill pay vendor no longer meets their needs. They are struggling with adopting new payment options, maintaining aging infrastructure and reacting quickly to their client's ever evolving needs and new requirements.

“By leveraging our payments expertise and robust data, PayGen’s partnership and integration with Worldpay will deliver digital bill pay solutions for our clients and will anticipate and adapt to future needs and changes” according to Robin LoGiudice, Chief Product Officer and co-founder of PayGen.

If you are a biller and would like to discuss how PayGen can help you please contact sales@paygencorp.com.
